

INTERNAL COMMUNICATION

(REAL ESTATE AGENT TO CLIENT)

The human race is one incredible specimen. We've illuminated our world with the light bulb and ventured into the infinite abyss known as space. Yet despite these achievements, we still tussle with the age-old problem of "misplacing" our keys, which can often be the keys to our home – one of the biggest investments of our lives. As such, it's important that we find a technological solution.

As a company that values innovation, I wanted to share a nifty gadget known as a Swalle Key Finder. The fob, which attaches directly to your keys, is Bluetooth enabled and can be used to locate objects through an intuitive app on your smartphone. While it may not bring you to the moon and back, it can help you seek out your lost items – not a bad start!

I hope you enjoy it and thank you for your business and referrals.
